

Continuing the comparison of where the planets were in the 1930s, and where they are now, we can observe the time when the Nazi death camps started, to the coming period

Wikipedia says” *The camps designed specifically for the mass gassings of Jews were established in the months following the [Wannsee Conference](#) chaired by [Reinhard Heydrich](#) in January 1942 in which the principle was made clear that the Jews of Europe were to be exterminated. Responsibility for the logistics were to be executed by the programme administrator, [Adolf Eichmann](#).*[13]

*On 13 October 1941, the [SS and Police Leader Odilo Globocnik](#) stationing in [Lublin](#) received an oral order from [Reichsführer-SS Heinrich Himmler](#) – anticipating the [fall of Moscow](#) – to start immediate construction work on the killing centre at [Belżec](#) in the [General Government](#) territory of occupied Poland. Notably, the order preceded the Wannsee Conference by three months,[14] but the gassings at [Kulmhof](#) north of [Łódź](#) using [gas vans](#) began already in December, under [Sturmbannführer Herbert Lange](#).[15] The camp at Belżec was operational by March 1942, with leadership brought in from Germany under the guise of [Organisation Todt](#) (OT).[14] By mid-1942, two more death camps had been built on Polish lands for Operation Reinhard: [Sobibór](#) (ready in May*

1942) under the command of Hauptsturmführer [Franz Stangl](#), and [Treblinka](#) (operational by July 1942) under Obersturmführer [Irmfried Eberl](#) from [T4](#), the only doctor to have served in such a capacity.[16] [Auschwitz concentration camp](#) was fitted with brand new gassing bunkers in March 1942.[17] [Majdanek](#) had them built in September.[18]

Two of the main planets pushing things at this time are Pluto and Persephone. This is making the realities of the Corpocracy impact physically upon humanity. The North Node brings destiny moments' to a head. While the Jupiter transit brings the social connotations, that manifest in ideas of societal purity.

The second pass of Jupiter over Pluto, with North Node in October of 1941, corresponds with similar relationships in March 2017.

Just saying .....
