

Welcome

I Looked and This is What I Saw

This is a Thought Puzzle exploring

As Above, So Below

It tells a story, and each poster tells part of it.
Most of the story was told by Dr Rudolf Steiner
- till page 44 - where Glen Atkinson tells of how
Chemistry can be seen, within the Doctors Tale.

It presents a
Science of The Circle.

The posters are for Looking at
See what you know and
what you do not know

Follow the Thoughts and Questions
that arise; adding your Knowledge.

They are to be Lived With and Over Time,
The pieces of the Puzzle, fall into place and
a possible Universal Order will be revealed.

We are looking for What is Real,
There is nothing so Real as the Universe.

By looking at It, and Seeing its Order,
we can Understand our Environment,
as an expression of It, and Act along with It.

designed to be printed as A3 posters.

The Apple of Life

Facing South

The energetic structure of all of creation

Vortexes on the vertical suck in matter and forces,
which are concentrated on the centre
and then squirted out along the horizontal plane

The circles are the magnetic field
created by this spinning movement

The small spirals within the vortexes
indicate the organisation of the six dimensions.

Painted by Chris Elliot

The Apple of Life

Gyroscope and Orientations

The apple of life is a 2 D representation
on what is really a gyroscopic 3D being

Observe the difference between
the north south axis
and the zenith and nadir axis

North South is the vertical
Zenith Nadir are the horizontal

The planets and the constellations beyond them
are all on the horizontal plane

Observe the 3 dimensions of
Up and Down
Forward and Backward
Left and Right

Observe how the organisation of the three planes
occur when they cross each other

Picture Orientations

Facing South

These diagrams are orientated
for the northern hemisphere,
facing south to the ecliptic .
A zenith orientation and
East is on the left hand side.

Magnetic North

Chemistry is electro magnetic
and orientates off magnetic north.
East is on the right hand.

The Layers of Creation

Facing South

The left spiral is the Astrological inward movement
through the six dimensions

Constellations, planets, elements,
modes duality, earth

The middle 'rings' diagram places this same information
as individual rings and associates them to
the energetic activities described by Dr Steiner.
This is our experience of creation.

The right gyroscope shows what happens
to the world activities once there is
movement that supports life forms.
The energetic activities polarise.

The world activities hold the vertical and horizontal axis
as the primary cross, while the internalised activities
of the lifeforms manifest as a secondary cross
in between the world activities.

The chart shows the 12 layers of creation

The Kingdoms of Nature

All life are internalised manifestation
of the four energetic activities.

Observe the differences
between each kingdom.

Observe the polarity of
internalised and external activities

Both work all the time
