

## The Major Elements – Earths Toolbox

All the previous information can be put together. The task is to find the threefold energetic activity for each of the elements.

The following interpretations of the Elements are only partially complete. I have started worked up the Major Elements, done more on the Transitions and taken a different approach, of 'proving' the Lanthanides.

It is your task to complete the tale for the Major Elements. The keywords for the Glenological 'dimensional layers' are outlined for each element.

You might like to do this after you have read the rest of the book.
